

HARKIRAT CHAHAL

Kelowna, BC | (250) 899-7114 | harkirat@icloud.com | linkedin.com/in/harkirat-chahal | github.com/harkirat-c

Fourth-year Computer Science student (Minor in Commerce/Management) at UBC with full-stack experience across team-built web applications, including a capstone platform that automates exam grading with computer vision. Enrolled in UBC Co-op; available for Fall 2026, Winter 2027, and Summer 2027 work terms in business/data analysis, IT, or software development roles.

EDUCATION

University of British Columbia (Okanagan) — Kelowna, BC

Expected Graduation: 2027

BSc, Computer Science; Minor in Commerce/Management | GPA: 80%

- Relevant coursework: Artificial Intelligence, Software Engineering (Capstone), Data Structures & Algorithms, Databases, Parallel Computing, Computer Graphics, Project Management, Operating Systems, Accounting/Auditing

TECHNICAL PROJECTS

Optical Marking Management System (OMMS) — Capstone, 6-person team

2025 – 2026

- Web platform that automates grading of paper bubble sheets using optical mark recognition; instructors upload scanned exams, review results, and manage courses and rosters
- Built frontend features in React + TypeScript, including results dashboards, per-question grade breakdowns, and a student remark-request workflow backed by a FastAPI REST API
- Contributed to a 3-tier architecture using PostgreSQL, Redis job queues for asynchronous OpenCV processing, and distributed file storage (SeaweedFS)
- Led documentation and coordination: project plan, design documents, wireframes, and sprint tracking in GitHub Projects

Job Board Web Application — university team project

2024

- Implemented user authentication and search/filtering across a React (Vite) frontend and Node.js/Express + MongoDB Atlas backend using a routes–controllers–services architecture

WebGL Graphics Projects

2024

- Built an interactive 3D renderer and a browser game (“Super Bug Zapper”) in JavaScript/WebGL, implementing transformations, lighting/shading, and mouse-driven interaction

EXPERIENCE

Avis Budget Group (Kelowna Airport) — Sales Associate

Jul 2025 – Present

- Process rental agreements, insurance options, and deposits in enterprise systems (Wizard/WaND), maintaining 100% transaction accuracy
- Consistently exceed upsell targets for vehicle upgrades and coverage through product knowledge and clear communication
- Coordinate with team members to manage fleet availability and resolve logistical issues

SUO UBC Weightlifting Club — Vice President of Outreach

Jan 2025 – Present

- Grew new-member signups by over 30% through campus events, tabling sessions, and social media campaigns
- Plan events and initiatives with the executive team, streamlining communication and improving execution

Jaggar Orchards & Vineyard — Supervisor (Seasonal)

2022 – 2025

- Led a 5–10 person crew and tracked daily operations in spreadsheets, completing harvests on tight deadlines
- Operated farm machinery and supported logistics, improving workflow efficiency and reducing downtime

Arctic Glacier — Warehouse & Delivery Assistant

Summer 2023

- Maintained inventory accuracy with digital tracking tools and coordinated timely deliveries with drivers

SKILLS

Languages: Java, Python, JavaScript/TypeScript, C, SQL, HTML/CSS

Frameworks & Databases: React, Node.js/Express, FastAPI, PostgreSQL, MongoDB, Redis, OpenCV

Tools: Git/GitHub, GitHub Projects, Microsoft Excel/Office, Google Workspace, CUDA/OpenMP (coursework)
